DETAILED ACTION

This office action is a response to the restriction requirement filed on 4/23/04.

Response to the Restriction Requirement

1. Applicant's election without traverse of Group I, claims 1-10, in the reply filed on 4/23/04 is acknowledged.
2. The non-elected claims 11-31 are cancelled.
3. Upon further consideration with newly submitted claims 32-41, further restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-10, drawn to a load device for a cable, classified in class 29, subclass 739.
 - II. Claims 32-41, drawn to a jacket assembly for a cable, classified in class 29, subclass 729.
4. Inventions Group I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Group I has separate utility such as means for attaching the second end of the leader to the cable and the invention Group II has separate utility such as the second end of the leader for pulling the leader out of the elongated jacket while the first end of the leader pulls the cable into the elongated jacket. See MPEP § 806.05(d).

Art Unit: 3729

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul D Kim whose telephone number is 703-308-8356. The examiner can normally be reached on Tuesday-Friday between 8:00 AM to 5:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Peter Vo can be reached on 703-308-1789. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
